

PERSONAL PROFILE

Wallace H. Swanson, A.I.A. Architectural Manager

SUMMARY:

Wallace Swanson is a professional architect with nineteen years of architectural design and project management experience for residential, commercial and industrial facilities. His architectural expertise, communication skills and leadership abilities have assisted him to form and direct many successful design teams for small, medium and large scale projects. Wally is skilled in design, construction documents, building code compliance and coordination with engineering disciplines on a variety of military, public and private facilities. *Past experience consists of design development and production of construction documents on over 110 major Alaskan projects.*
